Bhadrachak Tisco Flat Post, bhelatand,
Dhanbad, Jharkhand 828103, India

SUMMARY

Computer Science Engineering student with a strong academic record (9.45 CGPA) and hands-on experience developing full-stack applications. Skilled in Java, Python, JavaScript, and Node.js with practical knowledge of database systems including MongoDB and MySQL. Demonstrated ability to build responsive web applications and implement back-end solutions through multiple successful projects. Seeking an entry-level software development position to leverage technical skills and contribute to innovative technology solutions.

EDUCATION

Siksha 'O' Anusandhan University

Bachelor of Technology in Computer Science
Engineering (2023 – Present)

TATA DAV School, Sijua

Class 12 (CBSE)
2022 – 2023

SKILLS

- Programming Languages: Java, Python, JavaScript, PHP
- Frameworks & Libraries: Node.js, Express.js, Mongoose, Java Collections, NumPy, Pandas
- Databases: MongoDB, MySQL
- Developer Tools: Git, GitHub, Postman, Jupyter Notebook, Google Developer Tools
- Web Technologies: HTML, CSS, JavaScript, RESTful APIs
- Problem-Solving: Data Structures, Algorithms, Data Science (100+ problems solved)

CERTIFICATIONS

- Node.js & MongoDB: Developing Back-end Database Applications from IBM via Coursera

PROJECTS

Hackathon Management Platform

- Developed a full-stack platform using HTML, CSS, Node.js, and MongoDB
- Implemented features for seamless coordination between contestants, judges, and administrators
- Created functionality for real-time progress tracking and streamlined task management
- Enhanced user experience through intuitive interface design

DeepFX-Studio

- Created a responsive photo editing application with AI features
- Developed the entire front-end using HTML, CSS, and JavaScript
- Designed and implemented an intuitive user interface for enhanced user experience

AICOMICX

- Built the back-end architecture for an AI-powered comic generator
- Integrated Python models with Node.js for enhanced functionality
- Implemented secure user authentication and authorization systems
- Managed efficient data flow between front-end and backend components
